BRINKS COMMERCIAL

M91P Heavy-Duty Rim Panic Exit Device

ANSI GRADE 1

c UL us

10 YEAR LIMITED WARRANTY

The M91P exit device meets ANSI A156.3 Grade 1 standards and is UL 305 listed. The push bar mechanism offers smooth and quiet hydraulic push bar retraction compared to spring operated devices. The push bar requires 5 lbs or less to engage the latch bolt, meeting ANSI A117.1 ADA requirements. This exit device is an excellent choice for single doors or double doors with a mullion. The Brinks Commercial M91P is suitable for high-traffic doors in schools/universities, hospitality, airports, convention centers, and commercial offices.

Highlights

- M91P Offers comparable performance and footprint as Von Duprin 99 Series Exit Device at ~50% of the cost
- M91P works with Von Duprin 110 Night Latch and 990 Pull Trims (Select applications)
- SC4 Rim Cylinder and Finger Pull Trim included (~$60 value)

APPLICATIONS

- Multifamily
- Hospitality
- Office buildings
- Churches
- Restaurants
- Commercial buildings
