

## M91P HEAVY-DUTY RIM PANIC EXIT DEVICE

ANSI GRADE 1

UL LISTED

ADA COMPLIANT

The M91P exit device delivers reliable performance where safety and accessibility matter most. Built to ANSI A156.3 Grade 1 standards and UL 305 listed, it ensures maximum durability and code compliance. Its hydraulic push bar retraction provides a smooth, quiet operation—an upgrade over noisy spring mechanisms. With a push force of 5 lbs or less, it meets ANSI A117.1 ADA requirements, making it user-friendly and accessible for everyone. Designed for single or double doors with a mullion, the M91P is the perfect solution for high-traffic environments such as schools, universities, airports, convention centers, hospitality, and commercial offices.

### Key Benefits:

- Smooth, quiet hydraulic operation
- ADA-compliant accessibility (5 lbs or less to engage)
- Built to the highest durability standards (ANSI Grade 1, UL 305)
- Versatile for single or double door applications
- Trusted for demanding, high-traffic facilities

### Highlights

- M91P Offers comparable performance and footprint as Von Duprin 99 Series Exit Device at ~50% of the cost
- M91P works with Von Duprin 110 Night Latch and 990 Pull Trims (Select applications)
- SC4 Rim Cylinder and Finger Pull Trim included (\$60+ value)

## APPLICATIONS

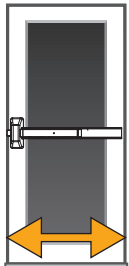

- Multifamily
- Hospitality
- Office buildings
- Churches
- Restaurants
- Commercial buildings

## FINISH OPTIONS
